

U.S. EPA Region 5

Emergency and Rapid Response Services (ERRS) Contract

LATA-KEMRON Remediation JV

Under this multi-year contract, KEMRON (in a joint venture with Los Alamos Technical Associates) provides response services for emergency, time critical and non-critical removal actions and early/interim remedial actions in accordance with the National Contingency Plan (NCP) for sites located in U.S. EPA Region 5. KEMRON's contract requires that we provide labor, materials and equipment as necessary to perform the specific response resources required for each task order. These resources include management and personnel to ensure response capabilities 24 hours per day, seven days per week. The contract also requires KEMRON to mobilize to emergency response sites within 12 hours.

Contract Statement of Work:

KEMRON provides the personnel, equipment, materials, facilities and management to respond to multiple requests for environmental support at various sites. These services may include actions, such as, but not limited to the following:

- Response Operations
- Project Planning
- Containment and Countermeasures
- Decontamination, Response Mitigation
- Treatment, Transportation, Disposal Operations
- Restoration and Soils Stabilization
- Analytical Services
- Demolition Services
- Construction and Support Facilities in Support of Removal Actions
- Marine Operations
- Technical Support of Government Enforcement Proceedings

The Services under this contract are performed throughout US EPA Region 5 (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin and 35 Tribes) with crossover to other regions as required.
