

USACE, Seattle District

Environmental Remediation Services Contract (ERS)

KEMRON Environmental Services, Inc. (KEMRON)

KEMRON's Indefinite Delivery / Indefinite Quantity (ID/IQ) ERS contract issued by the USACE Seattle District will support work assigned USACE, including but not limited to, Department of Defense Environmental Restoration Program (DERP); Formerly Used Defense Sites (FUDS); DoD Environmental Compliance Program, Environmental Support for Others (ESFO) Program; support to the Environmental Protection Agency (EPA) including Superfund and Brownfield Programs; Formerly Utilized Sites Remedial Action Program (FUSRAP); environmental cleanup for various military and Interagency and International Support (IIS) customers; environmental stewardship, and other environmental related regulatory programs.

Task orders under this contract will be primarily in support of USACE Seattle District work, but can also be in support of existing and future USACE customers throughout the United States, including Alaska and Hawaii, and the U.S. territories. Task orders will be issued as firm-fixed price (FFP) based on the requirements of the Performance Work Statement (PWS) at various known or suspected Hazardous, Toxic, and Radioactive Waste (HTRW) sites. Services may include, but are not limited to, the control of environmental contamination from pollutants, toxic substances, radioactive materials, and hazardous materials.

The majority of the task orders that will be issued under this ERS contract will be to provide services related to requirements of the Resource Conservation and Recovery Act (RCRA), the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), the Clean Water Act, the Clean Air Act, and other related Federal Programs in addition to State/Local specific regulations/requirements dealing with hazardous waste management/disposal, radioactive waste/mixed waste management/disposal, and with USTs, and other fuels related issues. Remedial actions may address both regulated and non-regulated toxic substances. Incidental construction will also be included in the ERS contracts however, construction activities must be incidental to the ERS work.
