

U.S. Army Engineering and Support Center, Huntsville

Worldwide Environmental Remediation Contract (WERS) UXB-KEMRON Remediation Services, LLC (A Joint Venture)

Under this multi-year contract, UXB-KEMRON Remediation Services, Inc. (a joint venture with UXB International, Inc. and KEMRON Environmental Services, Inc.) provides environmental restoration/remediation services including Conventional and Recovered Chemical Warfare Materiel (RCWM); Munitions Responses; Hazardous, Toxic, and Radioactive Waste (HTRW); and other related services at various Formerly Used Defense Sites (FUDS). Under this contract, services may also be performed at active DOD installations, DOD Base Realignment and Closure Act (BRAC) sites, property adjoining DOD installations, other federally controlled/owned sites impacted by Munitions and Explosives of Concern (MEC), and other hazardous materials. Munitions related work for other U.S. government agencies or foreign governments and agencies may also be performed as appropriate. Services may occur at sites located in the Continental United States (CONUS) or Outside the Continental United States (OCONUS) at which MEC or other munitions were previously or are currently stored, evaluated, disposed of or used for military training and operations. The contract may be used to support the U.S. Army's mission in Iraq and other services worldwide.

Services may include, but are not limited to the following:

- Anomaly Investigation Geophysical Surveys and Mapping
- Blast-Effects Engineering Groundwater Well Installation and Maintenance
- Chemical Sampling Analysis Landfill Liner and Cover Installation
- Hazardous Building Materials Surveys Long Term Management and Monitoring
- Dig and Haul MEC-related Operations
- Engineering Support/Design Operations and Maintenance Services
- Environmental Assessments Range Clearing and Maintenance
- Environmental Impact Statements Risk Assessment
- Environmental Restoration Remedial Investigations
- Ordnance Removal and Support Remedial and Removal Response Actions
- Feasibility Studies Site Inspections
- Geologic and Hydrogeological Support Treatability Studies
